GitHub: [Asadujjaman47](#)

Technical Skills

Languages: Java, JavaScript, Python, GO
Frameworks: Spring Boot
Cloud Technologies: Linux, Docker, AWS
Micro-service: RabbitMQ, Kafka, Redis
Monitoring/CI/CD: Prometheus, Grafana
Database: PostgreSQL, MySQL, MongoDB
Developer Tools: Git, IntelliJ IDEA, VS Code, Swagger, Claude, ChatGPT
Solved 200+ problems on DSA, SQL on LeetCode and HackerRank

Experience

- PIS | **Jr. Back-End Developer** (Spring Cloud, Docker, PostgreSQL, WebSocket) (Feb 2024 – Present)
- Collaborated with senior developers, followed Agile processes such as sprint planning, daily stand-up, and bug fix day-to-day.
 - Learn and manage micro-service architectures and implement cloud configuration and
 - eureka and integrate all services from the monolith.
- PIS | **Internship** (Spring Boot, REST API, MYSQL) (Oct 2023 – Jan 2024)
- Developed a secure leave management system and followed the MVC pattern, Spring Security.
 - Learn workflow, coding patterns, best practices, and culture from senior developers.
- ERA Info Tech | **Intern (Trainee)** (Spring Boot, Oracle) (Apr 2023 – Sep 2023)
- I learned Spring Boot and its features, including dependency injection, JPA-based data persistence, and other essential back-end concepts.
- DIU | **Lab Prefect** (C++, Data Structure, Algorithm) (Jan 2020 – Aug 2020)
- Delivered tutorials and lectures on C programming and problem-solving strategies.
 - Provided guidance and support to students as they worked on their projects.
 - Facilitated classroom discussions and encouraged collaboration among students.

Projects

- SpringSheild | (Spring Booth, Spring Security, JPA, H2, JWT)
- Developed SpringSheild, a robust Spring Security project from scratch, empowered by JWT (JSON Web Tokens) from advanced authentication and authorization, securing application.
 - Enabled method-level security coupled with role-based access control, enabling fine-grained access control over services, enhancing security posture and access management.
 - Automated refresh token functionality once access token expires to streamline efficiency.

Education

Daffodil International University (2017 - 2021)	Carmichael College, Rangpur 2017
B.Sc. in Computer Science and Engineering (CSE)	HSC, Science

Soft Skills

Verbal communication in English, Problem-Solving, Teamwork, Adaptability, Prompt Engineering

Interest

System design, Cloud Computing, DevOps, Artificial Intelligent

Personal Details

Father's name: Md. Ayub Ali	Nationality: Bangladeshi
Mother's name: Mst. Anjuara	NID No: 5105258726
DOB: 1st February, 1998	Permanent Address: Pirganj, Rangpur,
Blood Group: B+(ve)	Bangladesh
